

MAXIMO DAVID G. ORTIZ, JR.

Software Engineer

Sto. Tomas, Batangas | +63 906 089 3002 | davidgortizjr@gmail.com | davidortizjr.github.io

SUMMARY

Detail-oriented Information Technology student with hands-on experience in software engineering and full-stack web development. Skilled in building applications with React, TypeScript, C#, ASP.NET, MSSQL, PHP, JavaScript, HTML, and CSS. Experienced in resolving software defects, refactoring backend systems, and enhancing UI/UX within Agile environments. Recognized on the Dean's List and President's List, reflecting a strong foundation in software development and collaborative problem-solving.

SKILLS

Technical: React, TypeScript, JavaScript, Java, C#, SpringBoot, ASP.NET, PHP, HTML5, CSS3, Bootstrap, Microsoft SQL Server (MSSQL), MySQL, Git, GitHub, Azure DevOps, Visual Studio, Visual Studio Code, Agile Development, Figma, Jupyter Notebook, Python, Machine Learning, Generative AI, Prompt Engineer, Github Copilot, Cursor

Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management, Adaptability, Critical Thinking, Continuous Learning

EXPERIENCE

Software Engineer Intern — MicroSource Inc. *Feb 2026 – May 2026*

Quezon City, Metro Manila

- Investigated, diagnosed, and resolved software defects across frontend and backend systems, improving application reliability and user experience.
- Developed and maintained application features using React, TypeScript, C#, and ASP.NET within an enterprise software environment.
- Researched and evaluated UI/UX components and implementation approaches to support product requirements and improve usability.
- Refactored backend code to improve maintainability, readability, and overall system performance.
- Collaborated with software engineers through Azure DevOps workflows, participating in bug tracking, code reviews, testing, and deployment.
- Worked with Microsoft SQL Server databases to support application functionality and data management.

Fullstack Web Developer — BoardBrew Amusement Place *May 2025*

Taft Ave, Malate, Manila

- Constructed and delivered a fully responsive client website, enhancing user experience from ideation to deployment.
- Implemented modern UI components with HTML, CSS, JavaScript, and Bootstrap, improving site usability and aesthetics.
- Developed backend functionality using PHP and MySQL.
- Collaborated directly with the client to gather requirements and deliver tailored solutions, ensuring alignment with project goals.

EDUCATION

BS in Information Technology — Polytechnic University of the Philippines *Nov 2022 – Sep 2026*

Sto. Tomas, Batangas

- Consistent Dean's List and President's List awardee; maintained strong academic standing throughout the program.

TRAINING & SEMINARS

- Salesforce Supported Virtual Internship Program — 2025
- University Capture The Flag (CTF), Trend Micro — August 2025
- DEVCON Philippines, University of Batangas – Lipa Campus — December 2024
- Tech Quest: Decoding the Matrix of Software Development, Computer Society — April 2024
